Additional information:

An easily sailed short - handed vessel with a history:

Built by a Craftsman Manufacturing Jeweler specialist s/s worker and sculptor. Ray built this boat as a labour of love and lavished only the best of workmanship and materials on 'Te Kouma' resulting in arguably, a boat than better than one professionally built to a price. A gentleman called Leo purchased her from Ray on his retirement to Kawau Island and reluctantly on sold her to Paul Gilbert after a happy 7 years. Paul lived on the vessel comfortably from 1999 until 2009. Business and personal commitments finally brought Paul ashore as he no longer required TK as a primary home. It was then sold to P Chapman and later to the Corbett Family in October 2012, whom now require a larger vessel.

Price is \$49,000.00 excluding GST.
